ENTERPRISES

SILICA GEL

We produce an amorphous & porous form of silicon dioxide, consisting of an irregular tridimension framework of alternating silicon & oxygen atoms with nanometer scale voids & pores. Basically it is desiccant or drying agent to absorb moisture. Also available for containers.

MOULD PROOF

A real agent which is a chemical used to prevent other materials from bonding to surfaces, without such a barrier in place. The substrate would become fused to the mold surface, resulting in difficult clean-up & dramatic loss in production efficiency.

ANTI MOULD STICKERS

Our anti-mold chip contains anti mold agents which will inhibit or eradicate the growth of mold, bacteria & certain other pests, by gradually releasing a gas which envelopes the protected objects within their packaging environment. It is reproduce by spores. They act much like a seed.

CUSTOM PRINTED TAPES

Our professionals strive hard to manufacture these tapes at state of the art of production unit using high quality materials. Moreover offered tapes are available in diverse colors, lengths & designs to choose from at pocket friendly price. These tapes are in adherence with industrial standards.

CUSTOM PRINTED PAPER

Custom printed wrapping tissue paper is the perfect addition to a branded packaging solution. We manufacture a large range of custom printed paper. We also avail our clients with wide variety of GSM as requirements. Our paper can be used in all aspects like wrapping foods, garments, shoes etc.
